

DOUBLE BOOTH

From a series of vertical flow clean air booths, the double cell size offers additional space over the single booth to accommodate a preparation bench and machine installation. Complete with two HEPA fan filter units and overhead lighting.

Featuring:

- Low profile HEPA fan filter units with adjustable speed control.
- Snap in pre-filter for easy replacement and maintenance.
- Fixed clear panels on all sides.
- 1 metre front access full-length flexible strip curtain.
- Overhead fluorescent lighting.

Fan filter unit

Machine specification:

Very low power consumption – each FFU runs at 200 watts @ 90 FPM

High efficiency particulate (HEPA) filter 99.99% efficient @ 0.3 micron

All anodised aluminium modular framework

Supplied flat pack for ease of shipping

Overall dimensions: 2500 x 1500 x 2400mm (WxDxH)

Approx weight 150 Kgs

Built to order – lead time 6-8 weeks

Process Capabilities:

To provide a clean environment suitable for film lamination

Modular construction allowing expansion with additional units

Additional options:

Ion bar for static dissipation
