

ITO TESTER CD24IT

The CD24IT ITO testing machine prevents unnecessary repeat TAB replacements by checking the ITO tracks after initial TAB removal and cleaning. This test saves valuable production time and is a useful failure analysis tool when developing ITO cleaning processes.

Featuring:

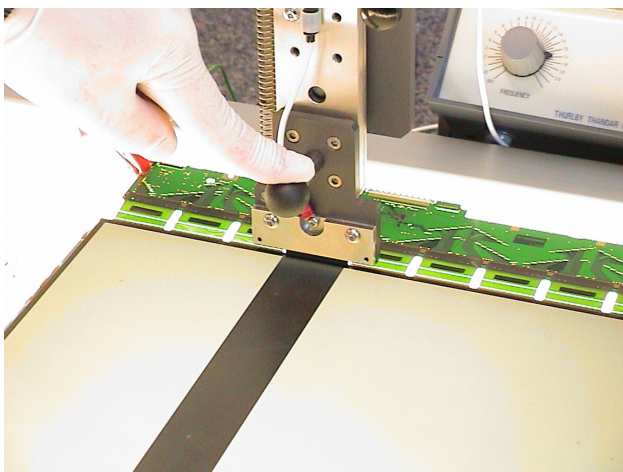

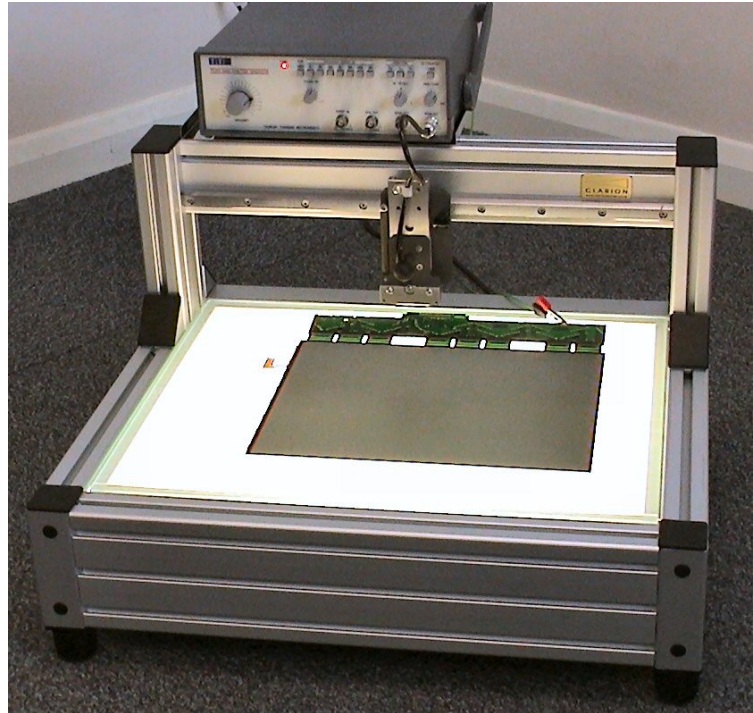

Glass support plate with intergral light source to illuminate LCD cell.

Soft interposer head to contact ITO tracks.

Adjustable signal generator to switch LC lines.

Process Capabilities:

Standard LCD support plate size 500mm x 400mm.

Machine specification:

All anodised aluminium construction.

220v supply.

Overall dimensions: 580 x 480 x 500mm (WxDxH)

Approx weight: 15 Kgs

Built to order – lead time 4 weeks.

Additional options:

Larger panel sizes to Customer spec made to order.
