

SINGLE BOOTH

First in a series of vertical flow clean air booths, the single cell size offers the minimum footprint for a single bench or machine installation. Complete with HEPA fan filter unit and overhead lighting.

Featuring:

- Low profile HEPA fan filter unit with adjustable speed control.
- Snap in pre-filter for easy replacement and maintenance.
- Fixed clear panels on 3 sides.
- Front access full-length flexible strip curtain.
- Overhead fluorescent lighting.

Fan filter unit

Machine specification:

Very low power consumption - FFU runs at 200 watts @ 90 FPM

High efficiency particulate (HEPA) filter 99.99% efficient @ 0.3 micron

All anodised aluminium modular framework

Supplied flat pack for ease of shipping

Overall dimensions: 1500 x 1250 x 2400mm (WxDxH)

Approx weight 75 Kgs

Built to order – lead time 6-8 weeks

Process Capabilities:

To provide a clean environment suitable for film lamination

Modular construction allowing expansion with additional units

Additional options:

Ion bar for static dissipation
